

ListNest MVP Description

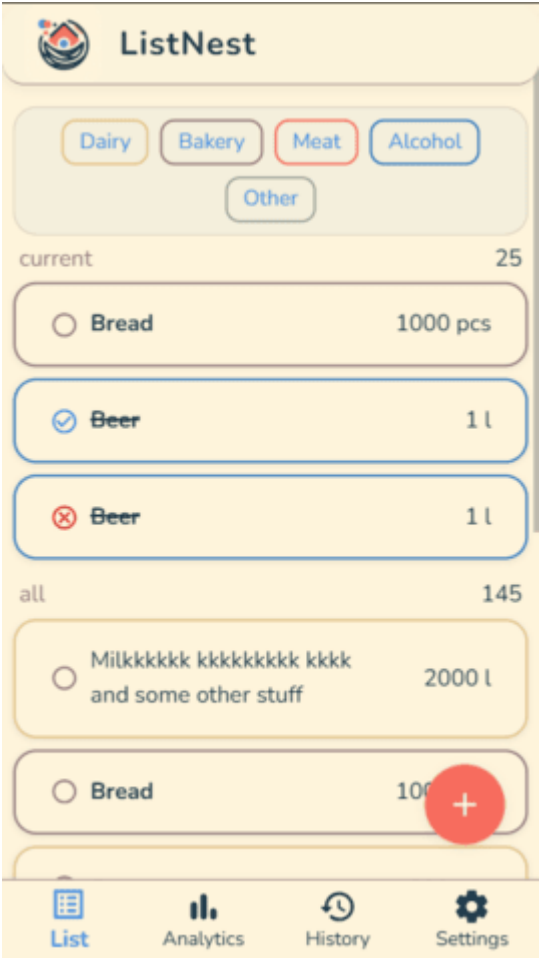

ListNest is a collaborative grocery shopping app designed for families. The MVP focuses on core list management, real-time collaboration, and simple organization. Users can add, edit, and categorize items, track what’s bought, and view their shopping history. The interface is mobile-first, intuitive, and supports basic category management.

Key MVP Features:

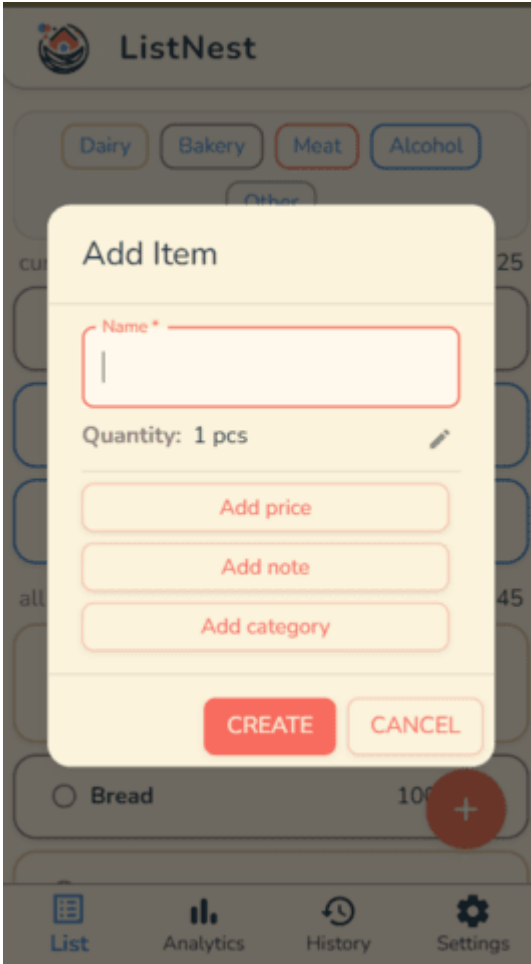

- Add, edit, and delete grocery items
- Mark items as bought or restore them
- Organize items by custom categories
- View purchase history, filter by date/category
- Simple, responsive UI for mobile use
